SPACE ANTENNA MAKERS

Anywaves Reaches a New Milestone with the Delivery of its 1,000th Product

PRESS RELEASE
TOULOUSE - FRANCE
JULY 23, 2024

Anywaves is proud to announce the delivery of its 1,000th product, marking a major milestone in its journey as a pure manufacturer of space antennas. This 1,000th delivery not only confirms Anywaves' position as an indispensable leader in its sector but also the seriousness and reliability of its products.

Anywaves' COTS Space Antennas & Test Caps

Since its inception in 2017, the company has consistently stood out for its commitment to excellence and customer satisfaction, designing, manufacturing, and delivering off-the-shelf and custom antennas worldwide. Today, major players in the global space industry such as Maxar, Airbus Constellation Satellites, Magellan, The Exploration Company, Hera Systems, and many others turn to Anywaves for their antenna needs. This trust reflects Anywaves' clear ability to meet the strictest requirements and provide high-quality products that meet the highest expectations.

Certified EN9100 since 2021, **Anywaves thus guarantees all its customers that its production processes meet the most stringent industry standards on a global scale.** This certification also underscores a determination to maintain an increased level of excellence.

«The delivery of our 1,000th product is an important milestone that perfectly illustrates our commitment to quality and customer satisfaction,» says Nicolas Capet, PhD, Founding President of Anywaves. *«As 'Space Antenna Makers,' we are proud of what we have accomplished and remain determined to continue on this path to offer the best products on the market.»*

This 1,000th delivered product is another step in Anywaves' continuous quest for innovation and quality. Eager to continue its growth and tackle new challenges, the manufacturer continues to strengthen its teams and now has around fifty employees dedicated to designing and manufacturing its space antennas. At the same time, the company has also increased its production capacity to effectively meet the growing demand from its customers worldwide.

About Anywaves

Anywaves, the only pure European space antenna equipment manufacturer, aims to become the world leader in space antennas.

Based in Toulouse, Europe's space capital, Anywaves designs, manufactures and delivers off-the-shelf (COTS) or custom antennas worldwide.

Thanks to the ingenuity and efficiency of its teams, Anywaves, which is EN9100 certified, is taking up the challenge of developing a new generation of antennas with very high added value for its customers.

Performance, reliability, and short lead times are the basis of its value proposition.
